CONFIDENTIAL

DATE DISTR. 12 SEP 50

SUBJECT Amount of Crude Oil Pumped from Soviet Oil
Administration Fields during June 1950

NO. OF PAGES 1

PLACE ACQUIRED 25X1A

NO. OF ENCLS.
(LISTED BELOW)

DATE OF INFO.

25X1X

SUPPLEMENT TO
REPORT NO. 25X1A

The following figures represent the daily average amount of crude oil pumped from various SHV oil fields during June 1950 and do not indicate actual well production. Production has decreased slightly, notably at Muehlberg, where the daily output has dropped about 30 tons owing to an increasing seepage of water and sand.

WV Field

Number of Tons of Crude
Oil Delivered Daily

Muehlberg	1,250
Matzen and Aderklaa (1)	1,800
SHV I (2)	310
SHV II	260
ITAG	135
Van Sickle Oil Co.	175
E.P.G.	165

25X1A

(1) [REDACTED] Comment: Aderklaa well No. 1 is still producing about 120 cubic meters of crude oil per day. Oil traces have been found at one of the two wells which are being drilled.

25X1A

(2) [REDACTED] Comment: Early in June 1950, a new well was brought in which now delivers 30 to 35 tons of oil per day. It is doubtful that this well will last.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
